

# Maths Workout - Number

Topic 11 - Order of Operations				
Target 1	Target 2	Target 3		
<i>Understand and use the order of operations with two operations</i>	<i>Evaluate calculations with 2 or 3 operations with brackets and powers</i>	<i>Evaluate calculations with 3 or more operations with brackets and powers</i>		
1. Complete simple calculations with 2 operations (x or / and + or -)	1. Complete simple calculations with 2 operations with brackets	1. Complete simple calculations with 3 operations		
2. Complete simple calculations with 2 operations (x or / and + or -)	2. Complete simple calculations with 2 operations with brackets and squares	2. Complete simple calculations with 3 operations		
3. Complete simple calculations with 2 operations (x or / and + or -)	3. Complete simple calculations with 3 operations with brackets and powers	3. Complete simple calculations with 3 operations with brackets		
4. Complete simple calculations with 2 operations (x or / and + or -)	4. Complete simple calculations with 2 operations with fractions	4. Complete simple calculations with 4 operations with brackets and powers		
5. Complete simple calculations with 2 operations (+ or - and + or -)				
6. Complete simple calculations with 2 operations (x or / and x or /)				
7. Mixed examples of tasks 1 to 6
